Arnold W. Kornahrens,
Summerville, S. C.

Dear Sir:-

In reference to advertising in the Summerville "Advertiser". After investigation we find that this delay is entirely up to the publisher of this newspaper. He certainly is at fault. Our order was sent to him in September. We have since written several times calling attention to the matter to which he has not even favored us with a reply. He has definite instructions and also our plates for advertising. We are again writing to him with the hope that we will secure the attention the matter merits.

Undoubtedly you as a local advertiser could bring some pressure to bear upon this publisher and we wish that you would kindly impress upon him how unbusinesslike it is for him not to give the matter attention and demonstrate to him wherein you are suffering as well as ourselves. Possibly he will think enough of your local business or what you think of his publication and his methods to wake him up.

Yours very truly,

J. Wiss & Sons Co.
