WISS HEDGE SHEARS

Regular Pattern—Drop Forged Handles

FIVE SIZES

Size	6½ in.	7½ in.	8 in.	9 in.	10 in.
Weight Each	2 lbs. 5 oz.	2 lbs. 7 oz.	3 lbs.	3 lbs. 2 oz.	3 lbs. 4 oz.
Price Each	\$2.75	\$3.00	\$3.25	\$3.50	\$3.75

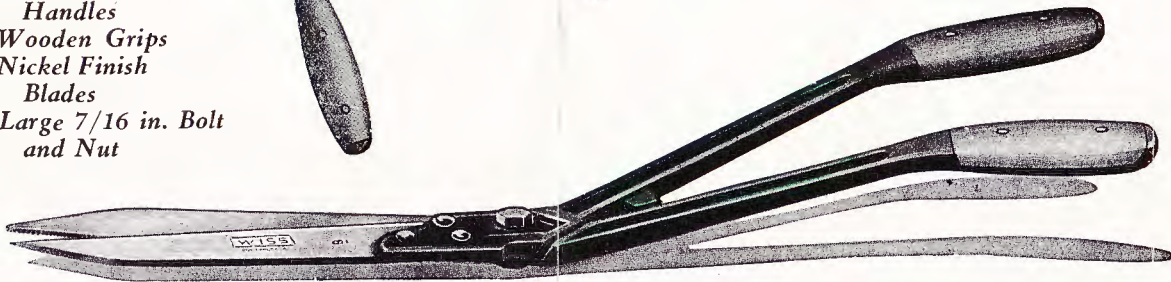

Both the regular and professional patterns are made to meet the demand for better balanced, easier cutting, and more durable hedge clippers. The blades are rickled, and can be kept clean easily.

Don't Tire the Arms. Lighter than the average old style hedge shears and beautifully balanced. Weight is evenly distributed.

Cut Easily. One blade ground to a knife edge and the other **serrated**. The knife edge cuts easily, and the serrated blade grips the twigs and prevents slipping.

Conveniently Sharpened. The knife edge may be honed without removing bolt.

WISS PRUNING SHEARS

Wiss Pruning Shears will outlast a dozen pruners of ordinary quality. They have remarkable strength. Nurserymen and growers of fine trees prefer them because they cut clean through the thickest twigs or the most delicate tendrils without tearing. All Wiss Pruning Shears (except 607, 609 and 209-V) are made entirely of forged steel with hardened cutlery steel blades. All parts are milled and interchangeable. The blade is fitted to the handle in a unique manner, securing perfect rigidity and ease of replacement in case of wear or breakage.

Every Pair Guaranteed Perfect in Workmanship and Material
