The **WISS**[®] Quality Story

The name Wiss has been synonymous with fine quality shears and scissors since 1848. This position of eminence is unparalleled in the industry and has been achieved by maintaining a standard of manufacturing excellence that has made Wiss a household word in this country and throughout the free world.

The manufacture of Wiss shears and scissors begins with the finest quality cutlery steel and a knowledge of metallurgy achieved from years of testing and analyzing these products at every stage of manufacture.

The combination of this with dedication and experience of skilled craftsmen, is responsible for the cutting edge superiority that has established Wiss shears and scissors as the standard of excellence in the industry.

At Wiss, we are constantly developing new products such as Quick-Clip[®] Speed Cutters, with its many uses, particularly around the sewing machine . . . and our Knife-Edge Shears which were designed especially to cut polyesters and today's other miracle fabrics.

At the same time we are developing new products, we are continuing to add improvements to the existing ones . . . the patented Wiss **SET-EASY** [®] **PIVOT**^{*} enables the user to adjust the run of the shears to fit the individual's preference.

This is done to insure that all our customers are provided with cutting tools that will cut easier, quicker, better and help do a more professional job . . . every time.

Wiss products are guaranteed against defects in workmanship or material.

See other Wiss Product lines by requesting our attractive, illustrated **Garden Shears Catalog, Tinnerns' Snips Catalog, Boker Tree  Brand Knives Catalog and Gift Sets Catalog.** For industrial users, a special **Tools for Industry Catalog** is also available.

WISS[®] ...the edge of excellence since 1848.

WISS[®] INLAID[®] TRIMMERS

These are the finest quality Wiss shears you can buy and are manufactured by a special Wiss process of welding high-carbon steel blades to hot drop-forged steel frames. This double-forging process results in shears that have a longer lasting cutting edge and that are superior to ordinary shears of one piece steel construction.

Wiss **INLAID** trimmers also feature rust-resistant nickel plating, perfect adjustment, and the patented Wiss **SET-EASY**™ **PIVOT**™ which enables the user to adjust the run of the shears to fit the individual's preference.
